

**For we are laborers together with God:  
ye are God's husbandry, ye are God's  
building.** 1 Corinthians 3:9

The website is "the thing". The most cost effective tool that Liberian Ministries has for communicating our mission, method and other information is [www.liberianministries.com](http://www.liberianministries.com). There is no postage, materials or other items that require funds that could otherwise be spent on the children. So please make it a habit to look at the website every couple of days. We are working really hard to keep fresh content appearing.

### **THE ORPHANAGE (from Shadrach)**

In the month of February, the Ministry built a three room, temporary shelter for our orphans to move in. We are trying to build another one to be able to separate the girls from the boys. We have to total of twenty (20) children living now in the temporary house. We have 85 children in total, but we are able to house all of them now until we can build more shelters for them to live in. Please pray that God will provide for these kids. They need to eat, have a place for them to sleep and clothes for them to wear. For now we have them expanded from one room to three rooms, thank God. We need to at least build for them a temporary shelter until we can finish their house. It is not easy for the Ministry to feed them due to the cost. I want you all to know that the children are the Ministry's responsibility until they can or are able to provide for themselves.

**The Next Trip** to Liberia leaves from New York's JFK International Airport at 9:55pm March 20<sup>th</sup>. Carl Hadley and Rodney Edwards of Liberian Ministries are going along with the film crew, Christian Hidalgo and David White, of Navigation Advertising ([www.navertise.com](http://www.navertise.com)). The scheduled activities are: a 1 day EvangeCube training session for 200 students at the Liberian Baptist Theological Seminary in Monrovia, a 3

day revival at the Children's Village which will include daily pastors' training and EvangeCube training as well and the filming of a documentary detailing the work that Liberian Ministries is accomplishing along with the tremendous opportunity that exists for even greater things.

**The Shipping Container** delayed from March 14 until March 26. There is still time for you, your missions group and your church to supply much needed items that can be shipped without additional cost. Most of these items cost \$10 - \$50 new and you have many of them around your home, perhaps unused and in the way. Please don't let this opportunity pass you by. Call Carl or Rodney at the numbers shown below or visit the website.

**Construction of the New School** building continues to progress. Shadrach was back in Monrovia last week to pick up the money for phases 2 and 3 (walls and roof). This school will be a drastic improvement over the dirt floors, mud walls and tarpaulin roof of the existing school house. There are some great pictures of the work so far posted in the picture galleries of the website. Please take time to view them.

**The Medical Clinic** is serving the Children's Village and the neighboring villages to the best of its ability. According to the breakdown that Shadrach sent with his most recent email (see the full message on the website) the clinic has served 973 people of all ages during its first 10 months of operations. If you have relationships with doctors, pharmacists, pharmaceutical companies or others in the medical profession please mention to them our need for most any medical supplies. Out of date supplies still help in Liberia.
